Hahnemann Medical College and Hospital
School of Nursing
Philadelphia, Pennsylvania

OUR STORY will be told and retold in the lives of Hahnemann nurses for years to come, but will never be quite the same as our own story. OUR STORY, portrayed in the following pages, is one of success, failure, renewed effort, and the final achievement of three years.

Our Story . . .

To dedicate a book to someone, or something, signifies that they have in some way contributed to the writing of that book. This contribution may have been through encouragement during the hours of toil. It may have been by sacrificing self gain and pleasure for the end result of seeing the writing completed, with the end gain being greater. This contribution might have included material substance. to make this great work possible. Surely it would have represented much love and patience in nurturing the author as he grew in stature, and was thus ready to produce the final work. These things could not be said of very many people. One must consider carefully, to whom such a tribute may be given. In the writing of OUR STORY there is a group of persons, who have contributed thusly in making our training possible. It is with love and deep appreciation, therefore, that we dedicate this book to Our Parents.

In Dedication

"The reason firm, the temperate will,
Endurance, foresight, strength, and skill;
A perfect Woman, nobly planned,
To warn, to comfort, and command."
Wm. Wordsworth

OUR STORY could never have been told without the tireless efforts of our teachers and supervisors. Each has nurtured within us that seed of inspiration which they caught during their training period, and have thus given our training experience purpose, momentum, and satisfaction.

Assistant Director School of Nursing in Education

"A little knowledge is a dangerous thing," so says the proverb. And so it has been that day by day we are guided in our study and practice by these who have by patience and understanding, turned that knowledge into skill.

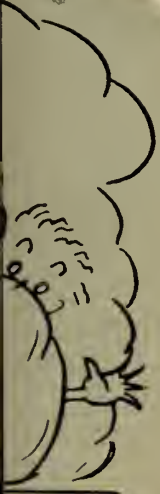

Opposite: E. Baum, Recreation and Recruitment Director. Below: seated — A. Putt, Science Instructor; F. Wzresinski, Assistant Director School of Nursing Education; J. Walton, Clinical Instructor. Standing — T. A. Forgach, Assistant Nursing Arts Instructor; B. L. Brown, Clinical Instructor; A. J. Courchaine, Science Instructor; Y. D'Alessandro, Nursing Arts Instructor; J. H. OUR STORY is about we, who have taken the role of the student, in order to take from our predecessors the seed of learning and carry it on to others. We have imperceptibly grown from shy, frightened girls, to women of stature. Each experience of our three years has added to this growth.

Students Who Grow . . .

Student Government

The Student Council in its monthly meetings serves as a link between student and faculty. Under an honor system of self-government it upholds the ideals of nursing and promotes dignity and courtesy in our personal relationships. The discipline of students under this system is maintained by the council. Dances, sports, mass meetings and daily chapel are a few of the activities for which it is responsible, thus enhancing our training experience. Pictured below are J. Large, Sr. Rep.; J. Yerk, Treas.; C. Reynolds, Advisor; N. Bernard, Sec.; G. Bailey, Jr. Rep.; R. Martin, Pres. Not shown, C. Kurtz, Vice Pres.

Graduation

OUR STORY has many gay and happy interludes. In the work and play each experience has added to our golden book of memories, making our growth vibrant. The pleasures are passing, but the memories live on as does the contribution they have made to our lives.
